

Miramar Community Leaders Forum
December 2009

The Community Leaders Forum was dark for the month of December.

Rancho Bernardo residents will be interested to know that the first MV-22 Osprey aircraft arrived at Miramar December 12th. This aircraft is the first of many that will replace the aging CH-46 helicopters. Marine Medium Tilt Rotor Squadron 161 will be the first squadron at Miramar to transition to the new V-22 Osprey. You should see it in our skies soon.

Happy Holidays!
